

H26 PLUS

FEATURE

H26 PLUS has achieved not only high quality but also excellent durability by adopting new type of compressible layer and surface.

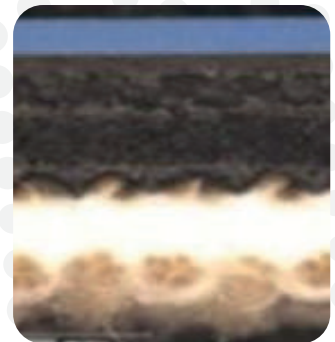

EFFECT

- High smash resistance
- Easy dressing
- Wide range of optimum printing pressure
- Good dot reproduction

SPECIFICATIONS

Application	Sheet-fed
Thickness	1.95mm+/-0.02mm
Hardness (Shore A)	about 77°
Surface colour	Blue
Surface roughness	about 0.9u (N/mm)
Compressibility	0.20mm at 200N/cm ²
Elongation	<0.7% (500N/5cm)
Tensile strength	>4500N/50mm
