

BOX760

FEATURE

BOX 760 has new latest technology and excellent durability by adopting new type of compressible layer and surface. Better for high speed printing and packaging printing.

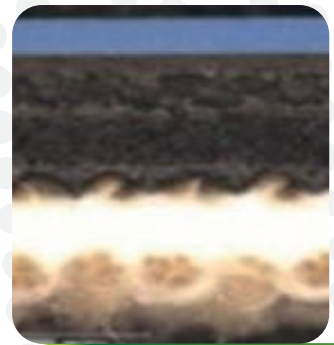

EFFECT

- Suitable for all kind of sheetfed machines
- Resistance to frequent format changes
- Hard face to prevent edge cutting
- Conventional inks compatibility
- Excellent image detail and overall high print quality

SPECIFICATIONS

Application	Sheet-fed
Thickness	1.96mm+/-0.02mm
Hardness (Shore A)	about 81 A 82°
Surface colour	Blue
Surface roughness	about 0.8-1u (N/mm)
Compressibility	0.20mm at 200N/cm ²
Elongation	<0.7% (500N/5cm)
Tensile strength	>4500N/50mm
